

# Advanced Reporting

The **Advanced Reporting Module** leverages a company's existing ARCOS data and allows users to generate and save custom views, reports and dashboards of data.

## Security

There are two security controls that affect access to *Advanced Reporting*.

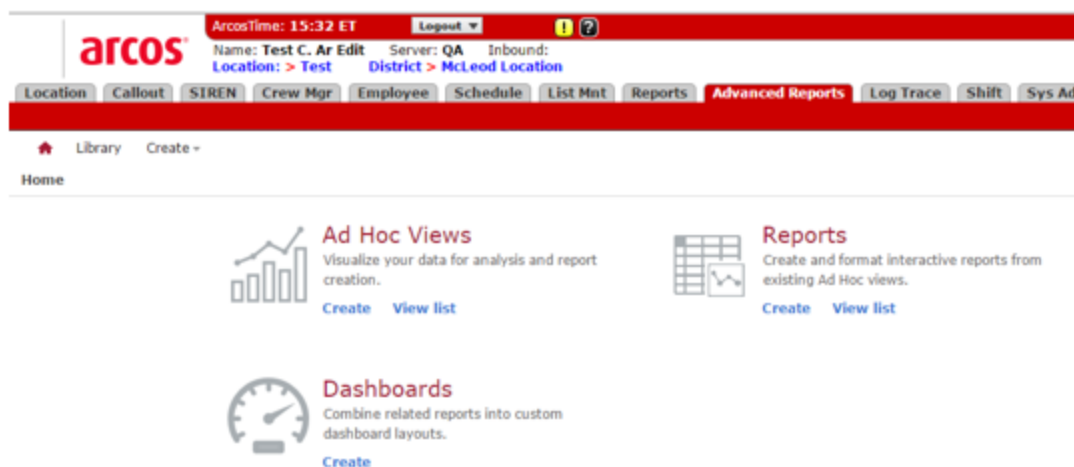

- **Run Reports:** allows users to access the *Advanced Reporting* tab and run or schedule either the default reports provided by ARCOS or custom reports created by other users. The "Run Reports" security is illustrated below.

Library				
Name	Description	Type	Created Date	Modified Date
Callout Charges Report		Report	July 22	July 22
Callout Overview Report		Report	July 22	July 22
Callout Progress Report		Report	July 22	July 22
Callout Schedule Records Report		Report	July 22	July 22
Employee Device Report		Report	July 22	July 22
Employee Overview Report		Report	July 22	July 22
Incident Data Report		Report	July 22	July 22
Overtime Entry Report		Report	July 22	July 22

This view lists the default reports as well as custom reports created by other users.

- **Edit Reports:** allows users to perform the same actions as "Run Reports" with the addition of being able to create new reports. The "Edit Reports" security is illustrated below.
