ARCOS Application Changes - Production 24.30 & 24.32

August 8, 2024

Changes will be deployed to QA on Tuesday, July 23, 2024, and Production on Thursday, August 8, 2024

Platform Enhancements

Send SMS Messages without Opt-ins

What is changing:

ARCOS has created a feature that removes the requirement for users to opt-in to SMS messaging prior to receiving additional messages. This feature removes the need to opt-in for all SMS message types.

Who is involved:

Any customer that is currently using SMS.

What you need to do:

This feature will not be enabled for any customers during the deployment. If you would like to remove the requirement for SMS opt-ins from your system, please reachout to ARCOS Support or Professional Services.

Enhancement to Employee Mass Modify Page

What is changing:

On the Employee Mass Modify page, users will now be able to page through employee records and search across them.

Note: These changes will only be applied to the Employee Mass Modify page.

Who is involved:

All ARCOS Mobile customers will receive this update.

What you need to do:

No further action is necessary to implement this change.
