## RosterApps Enhancements

None this release.

## Resolved Bugs

### **RAPD-14871 (ZD 63686) – Timecard Report should display locations for Company Admin**

The Timecard Report at Company Admin role was not allowing for specific locations/workgroups to be selected. This fix will now allow for a location and one or more workgroups to be selected.

### **RAPD-15125 (ZD 66068) - EVB - Missing Yellow Cautionary Symbol - Publish Awards**

When publishing vacation awards, a warning was not being displayed when an employee had shift extensions, shift trades, or open shifts during the week being awarded.

### **RAPD-15422 (ZD 67525) - EVB - Incorrect PTO Hours Display for 2025 EVB Awards Due to Overlap with 2024**

This fixes a display issue in the Edit PTO screen where future vacation awards (made via Enhanced Vacation Bidding) were not being charged correctly.

### **RAPD-15437 (ZD 67624, 63195) - Group Shift Extension Application Error**

This fixes a bug with group shift extensions when the skills selected resulted in an application error due to a large number of employees being returned.

### **RAPD-15463 (ZD 67850, 68066) - Filter Resetting After Leaving Supervisor Home Page**

The filter in the Time Off Requests section was not being maintained when the Supervisor navigated to other pages and returned.
