

RosterApps Application Changes – QA 25.04 / Production 25.06

January 6, 2025

Changes will be deployed to QA on Monday, January 6, 2025 and Production on Thursday, February 6, 2025

ROSTERAPPS ENHANCEMENTS	1
RESOLVED BUGS	1

Important Note for Non-HA Customers: As we transition to a more stable and robust infrastructure, the message displayed to users when RosterApps is unavailable during monthly deployments will change. This change is temporary and will remain in effect until your instance is moved to the high-availability (HA) infrastructure.

Old Message: To bring you the best experience possible we needed to bring ARCOS down for maintenance. Production may be unavailable during this maintenance window.

New Message: Error 503 Service Unavailable

Resolved Bugs

RAPD-15589 (ZD 68384) - "Filter on Type/Reason:" no longer shows the request to cancel vacation week

On the Supervisor home page, the filter on the PTO Requests table was not including the "Cancel – VAC WK" option even when there were vacation cancellation requests in the list.

RAPD-15526 (ZD 68063) - Incorrect Seniority Rank Displayed as 0

This fixes an issue that was causing employees with a pending a transfer (into the location) to show with a seniority rank of zero when ranked by location.
