| RAPD-16725 (ZD-76707) EVB – PTO Alert / Not Enough Hours Appearing Incorrectly..... | 3 |

Branding Updates

- Updated RosterApps branding with a new logo across the application and system-generated emails
- Refreshed visual styling for the header, navigation tabs, and footer
- Applied consistent design updates across key pages and mobile layouts
- Improved mobile styling, including updated borders and rounded elements

Note:

- **This is a visual update only**—no changes to functionality, navigation, or responsiveness
- All existing workflows and behaviors remain unchanged

The screenshot shows the RosterApps application interface. At the top, the 'arcos RosterApps' logo is displayed. Below the logo, there is a navigation bar with tabs for 'EMPLOYEES', 'WORK GROUPS', 'BID PACKAGES', 'ENHANCED VACATION BIDS', 'MIN STAFF LEVELS', 'SETTINGS', and 'REPORTS'. The main content area is titled 'Employees for Location - SEA Ticket Counter'. It includes a filter section with 'Filter: Active Employees' and 'in CSA FT' selected, and a date 'as of 04/08/2026'. Below the filter is a search box and a 'Records Per Page' dropdown set to 25. A table of employee records is shown, with columns for Name, Employee #, Work Group, Status, Job Title, Hire Date, and Classification Date. The table contains 23 rows of data. At the bottom of the table, there are navigation controls: '<< First', '< Prev', 'Page 1 of 23', 'Next >', and 'Last >>'. Two red arrows point to the 'arcos RosterApps' logo and the 'REPORTS' tab.

Resolved Bugs

RAPD-16725 (ZD-76707) EVB – PTO Alert / Not Enough Hours Appearing Incorrectly

- Resolved an issue where employees with sufficient PTO/vacation balances were incorrectly blocked from bidding due to a “PTO Alert / Not Enough Hours” message
- Fixed inconsistencies between PTO bank balances, employee home page, and EVB calculations (including projected balances and holiday logic)
- PTO alerts and bidding eligibility now accurately reflect available balances across all areas

Impact:

- Employees with adequate PTO can now bid without incorrect restrictions
